

# Hand cream

with wild rose extract

## Your hands will regain their youthful look

Thanks to natural nourishing ingredients, our hand cream with wild rose extract regenerates the epidermis and makes it more elastic, and also strengthens nails.

When used regularly, it slows down the effects of skin ageing and makes your hands soft and smooth. Well moisturized skin is resistant to the influence of external factors. The hands regain their youthful look.

### Ingredients:

**Wild rose extract** – rich in vitamin C, improves skin tone as well as nourishes and regenerates skin.

**Silk proteins** – remove roughness of the epidermis and moisturise, protecting effectively against the influence of external factors.

**Vitamin E** – it rejuvenates skin and strengthens nails.

**Inutec** – moisturises and soothes irritation.
